

GETTING AND INSTALLING ESRI BUSINESS ANALYST DATA UPDATE 2017

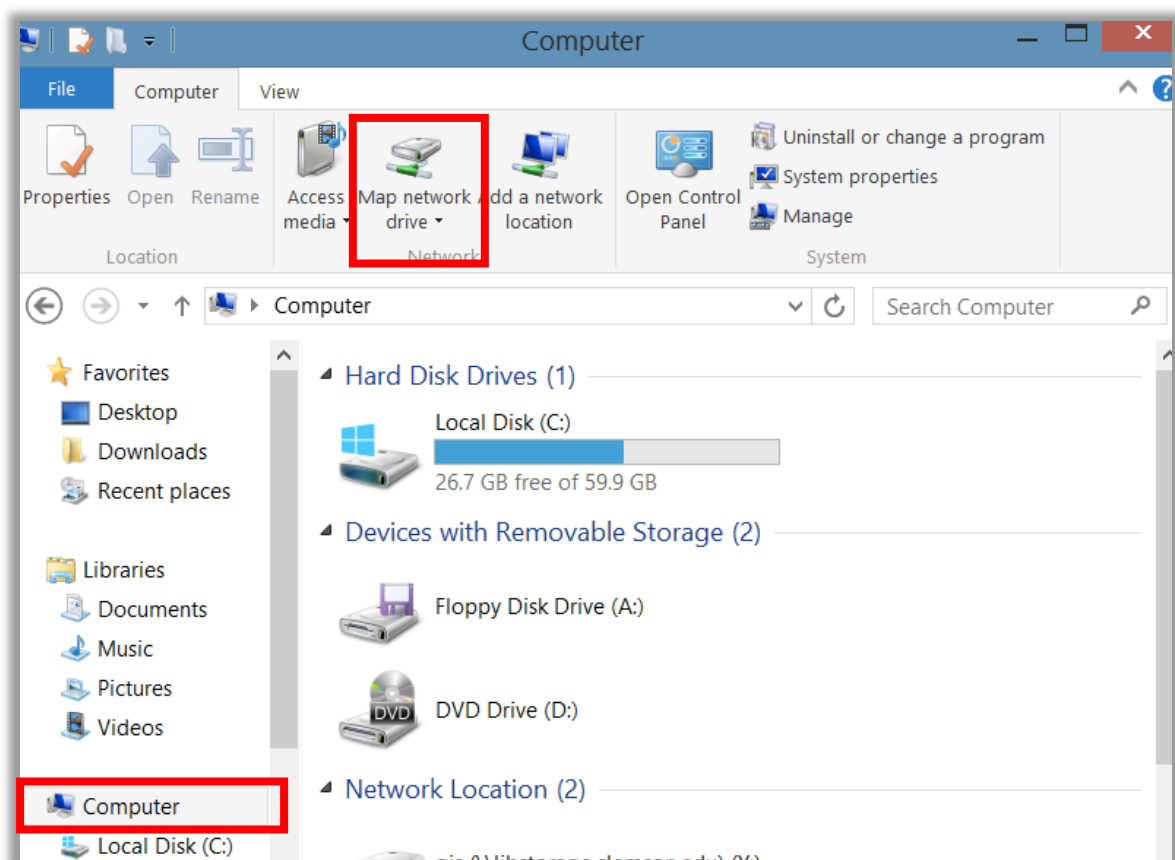

1. Connecting to the Software Drive

- To get the data for Esri Business Analyst for Desktop, you need to get access to the network drive folder that has the software. In order to do this, you need to be connected to the Clemson campus network: EDUroam.

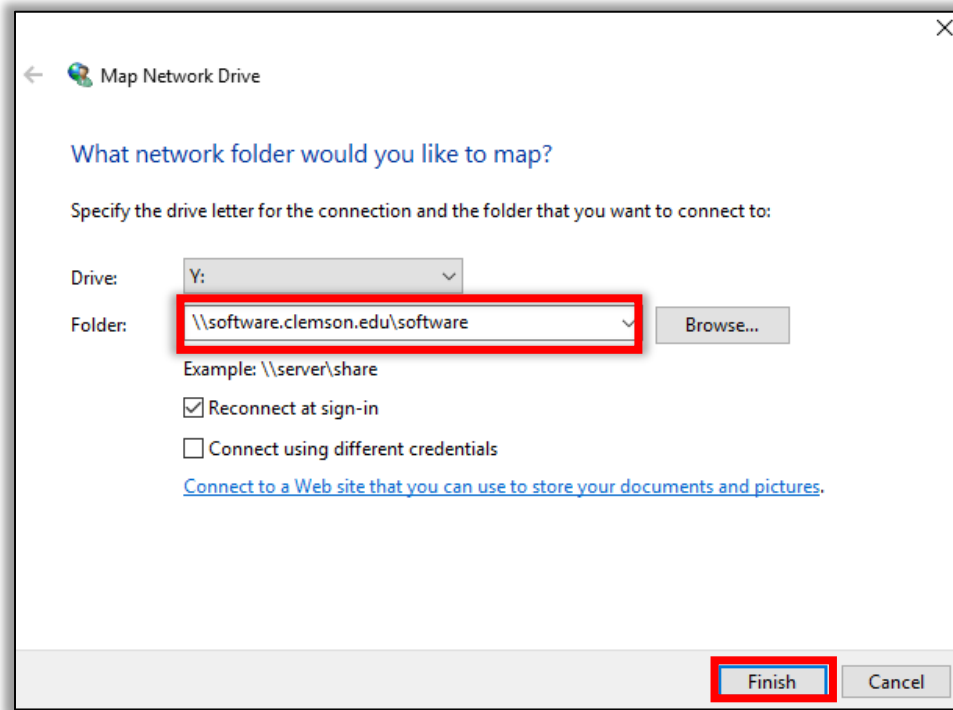

If you don't know how to connect EDUroam go to link below:

http://www.clemson.edu/ccit/help_support/eduroam/documentation/index.html

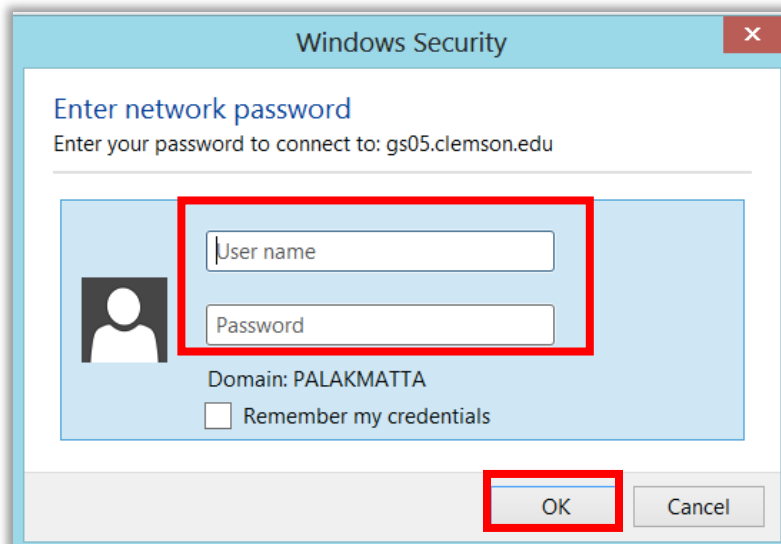

- Once you are connected to EDUroam, open Windows Explorer and click on **Computer** in the menu on the left.
- On the top bar menu, click **Map Network Drive**.

- In the dropdown box next to Folder, type `\\software.clemson.edu\software`. The letter chosen in the Drive dropdown menu is arbitrary. You can leave whichever your computer chooses.
- Click Finish.

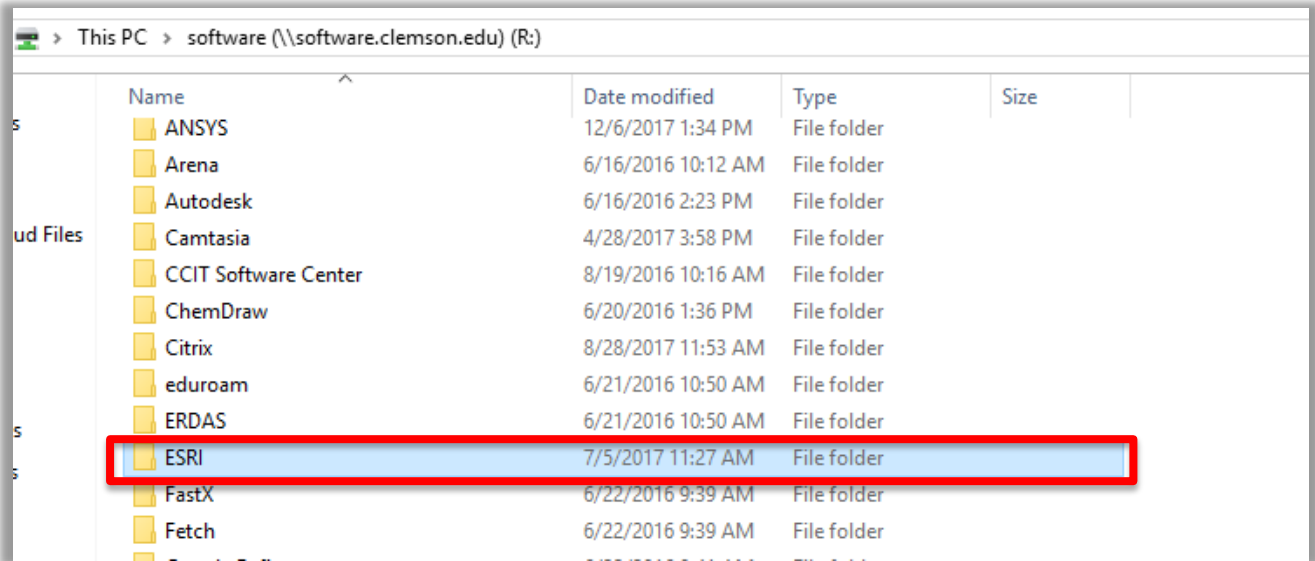

- You will be prompted to enter a password. In the Enter Network Password dialogue box; [enter your Clemson UserID and password.](#)

- After connecting to the network drive, it should display in your computer window next to your (C:) Drive. It will be labeled [gs05\(\\software.clemson.edu\)](#). Double-click to open the drive.

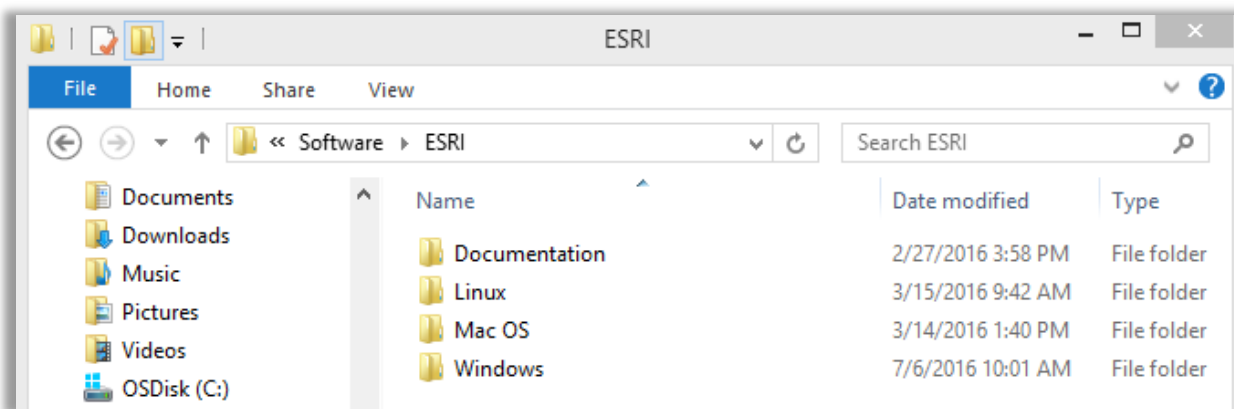

2. Getting the data

- Open the [Software](#) folder.

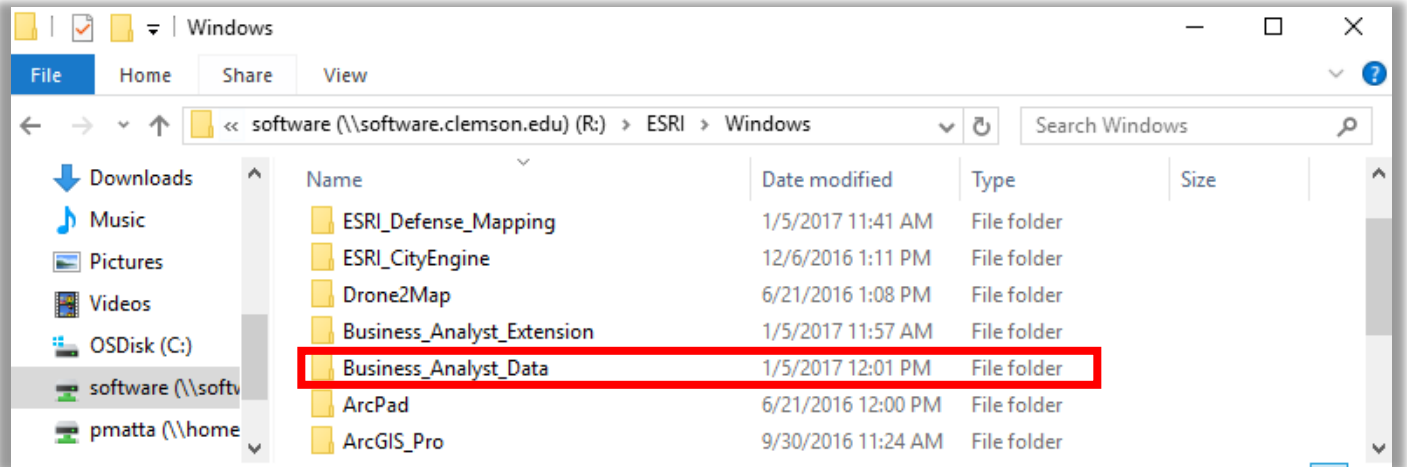

In the Software folder, scroll until you see a folder labeled [ESRI](#). Open the folder.

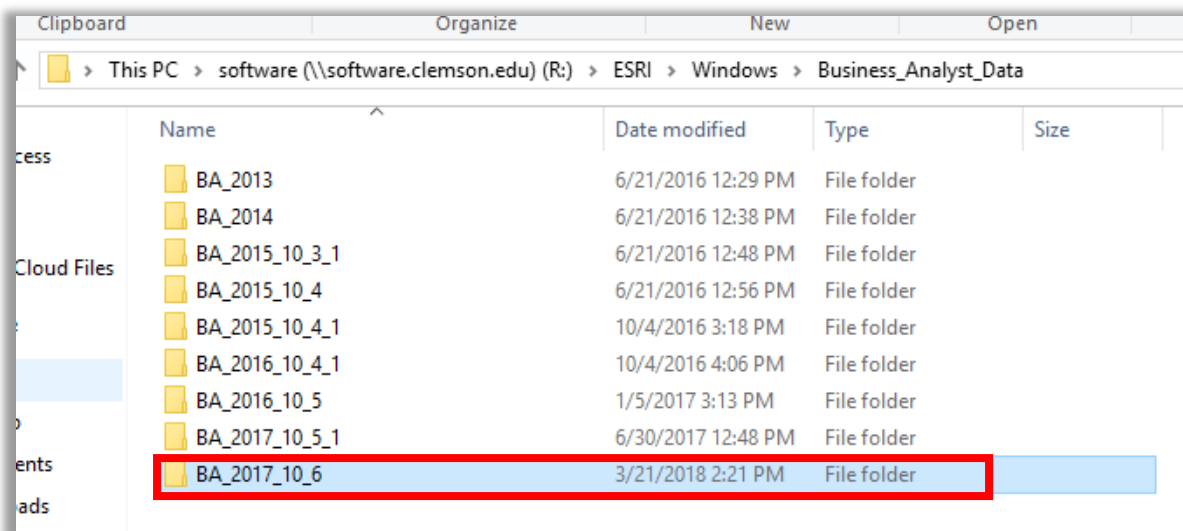

- Open the [Windows](#) folder.

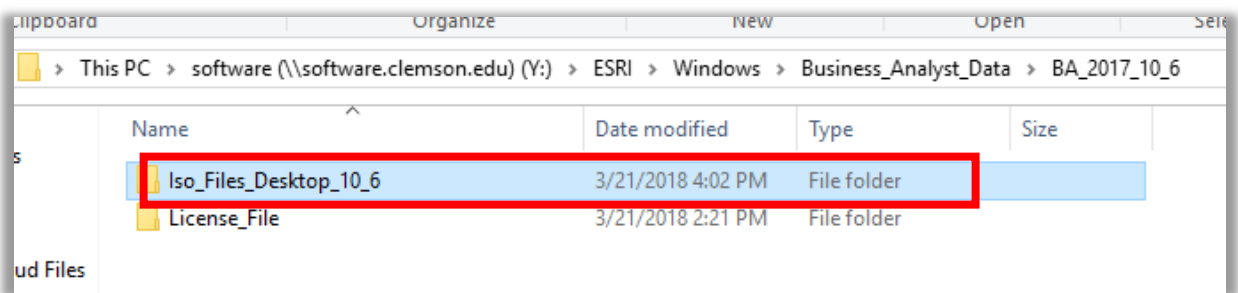

- Open [Business_Analyst_Data](#)

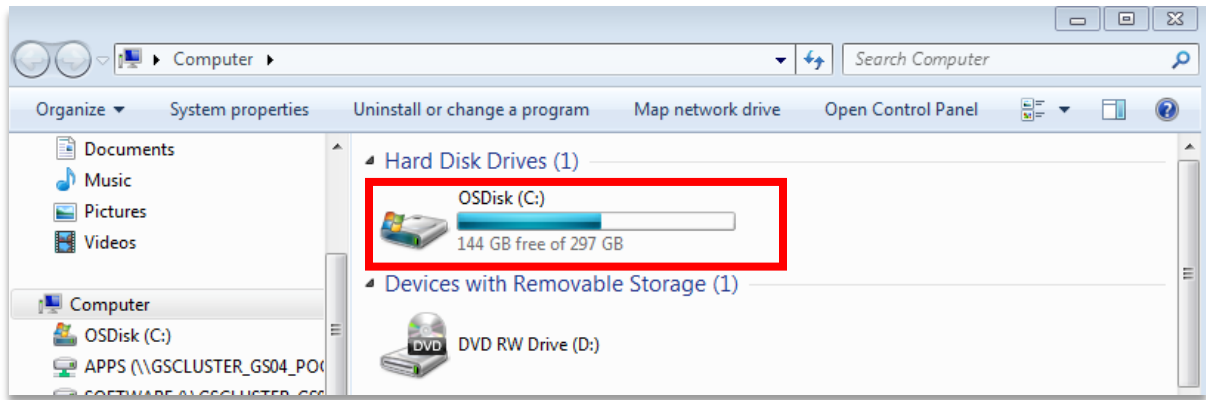

- [Open BA_2017_10_6](#)

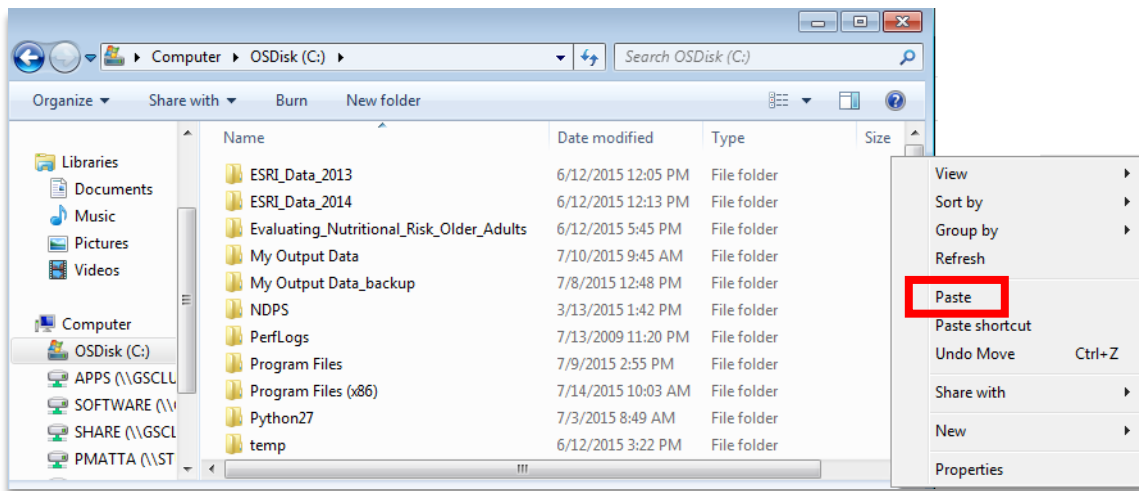

- Find the folder named [Iso_Files_Desktop_10_6](#) and right click on that folder and [copy it](#).

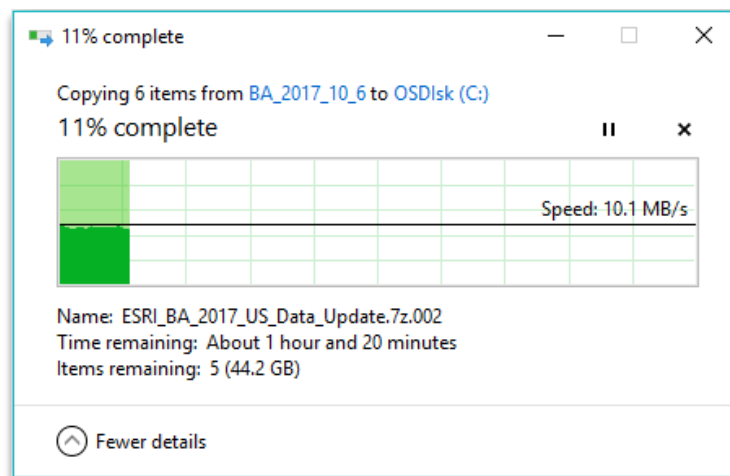

- Go to the C: drive of your computer (Start-> Computer). Then open the C: drive by double clicking on it.

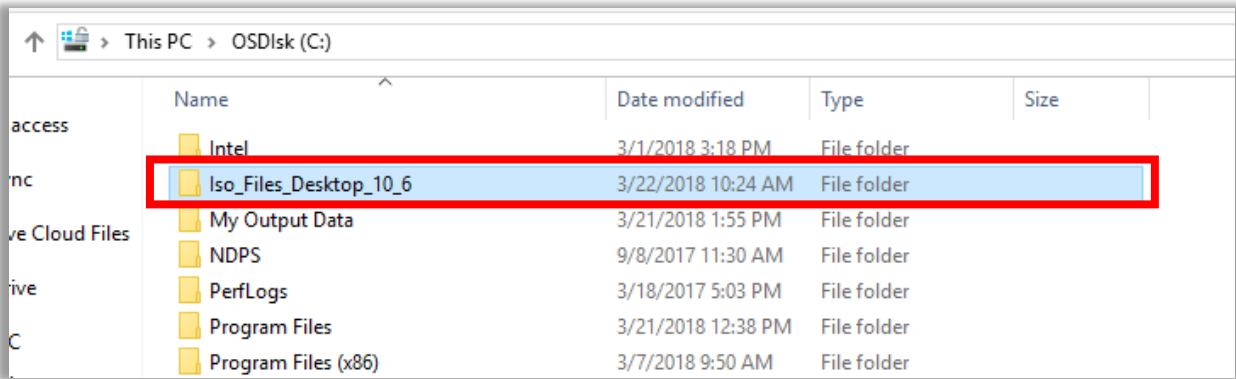

- After opening C: drive, right click on the white side and click **Paste**. (Make sure you paste it in C: drive and not in any other folder)

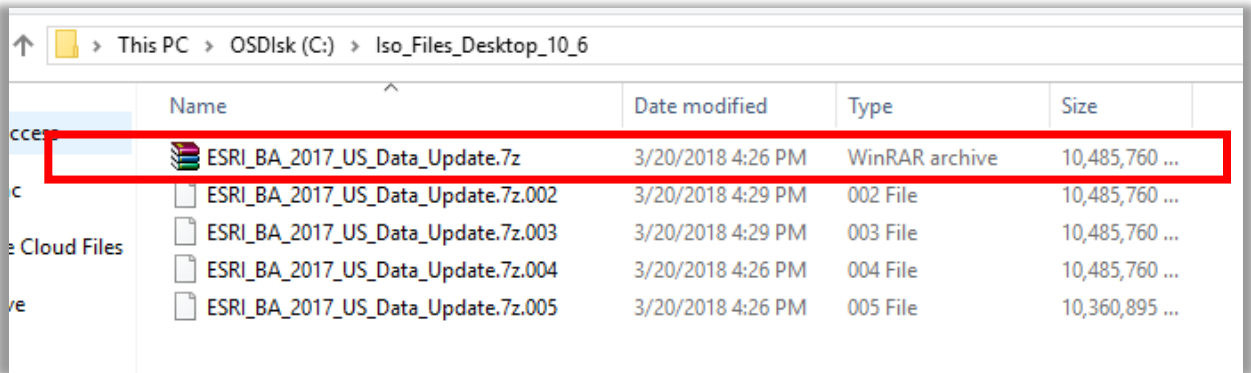

- You will see like the window below and let it complete the copying.

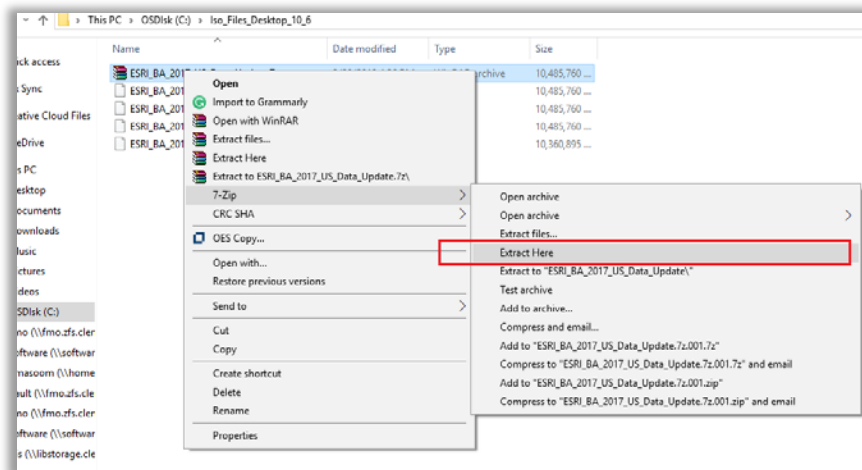

Now look in the C drive you will find a folder named [Iso_Files_Desktop_10_6](#).

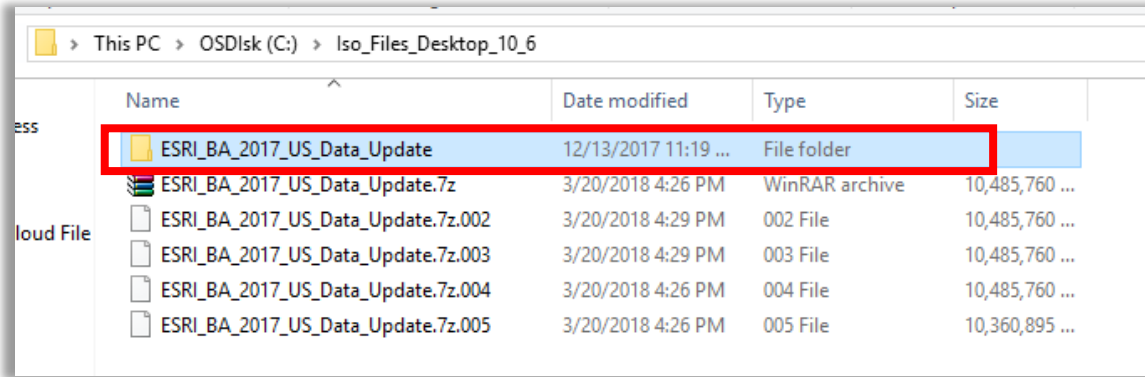

- Open the folder [Iso_Files_Desktop_10_6](#) by double clicking on it and you will see that there are five files in this folder.

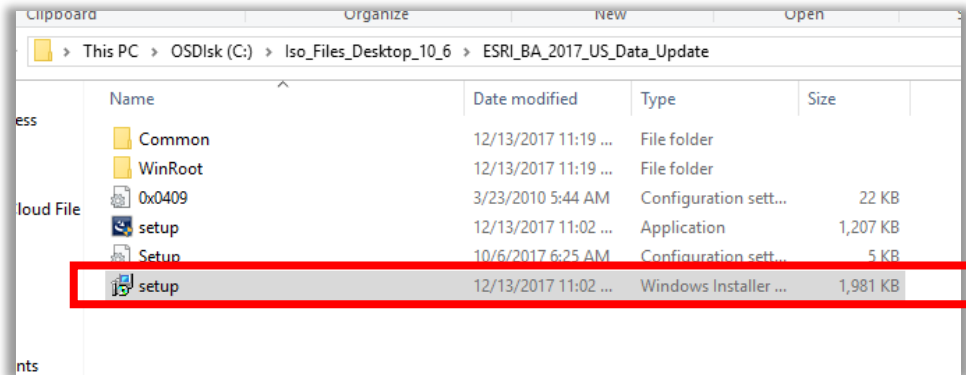

- Right click on the file named [ESRI_BA_2017_US_Data_Update.7z](#), then Select **7zip** and then **Extract here**. (If you don't have 7zip on your computer then download it from this link <http://www.7-zip.org/download.html>)

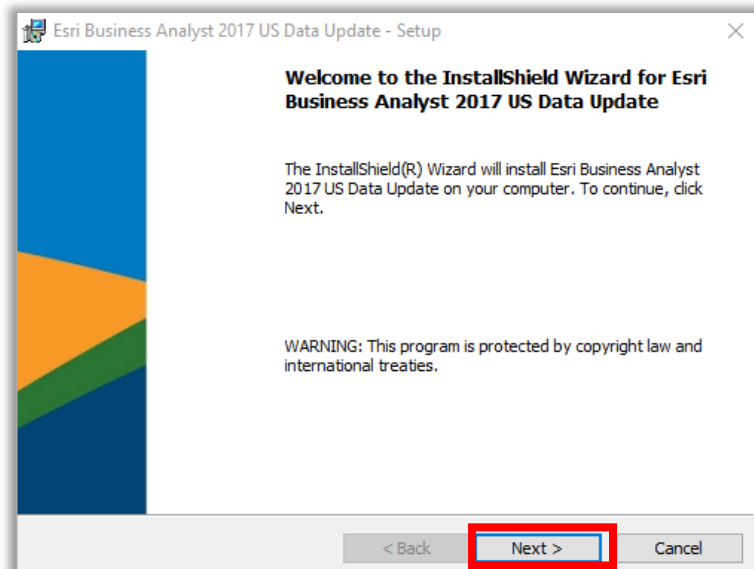

- Let the extractor run and it will take a while to extract the file.
- Open Iso_Files_Desktop_10_6 folder in your C: drive, you will see there is a new folder named as [ESRI_BA_2017_US_Data_Update](#).

- Open [ESRI_BA_2017_US_Data_Update](#) folder and double click on [setup](#).

- Click [Next](#).

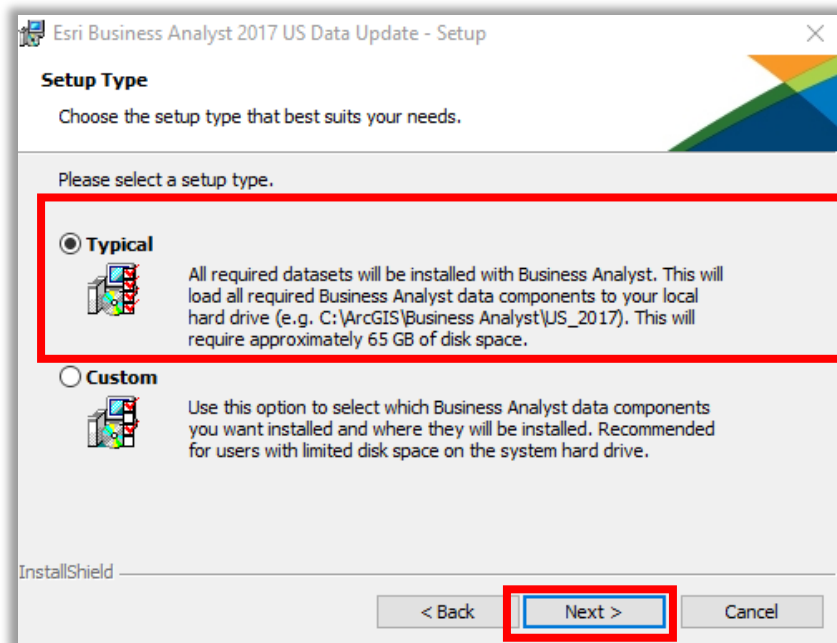

3. Installing Esri Business Analyst Data Update 2017

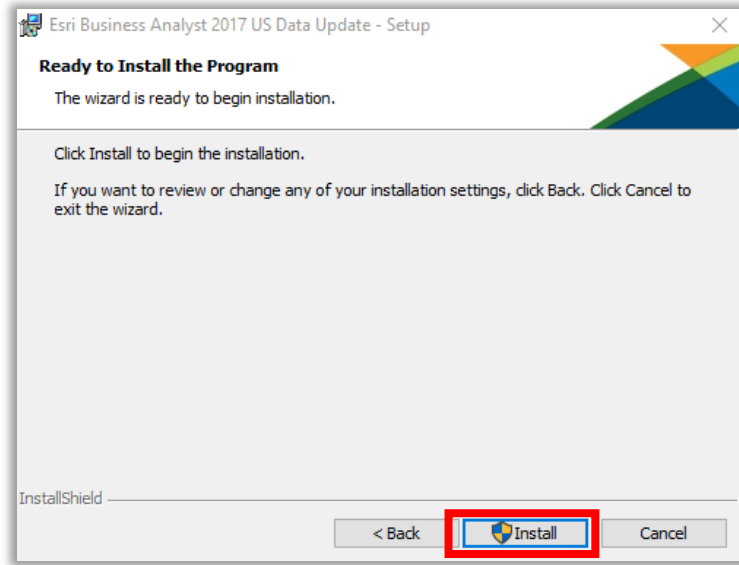

- Now, click on [I accept the license agreement](#), and click [next](#) again.

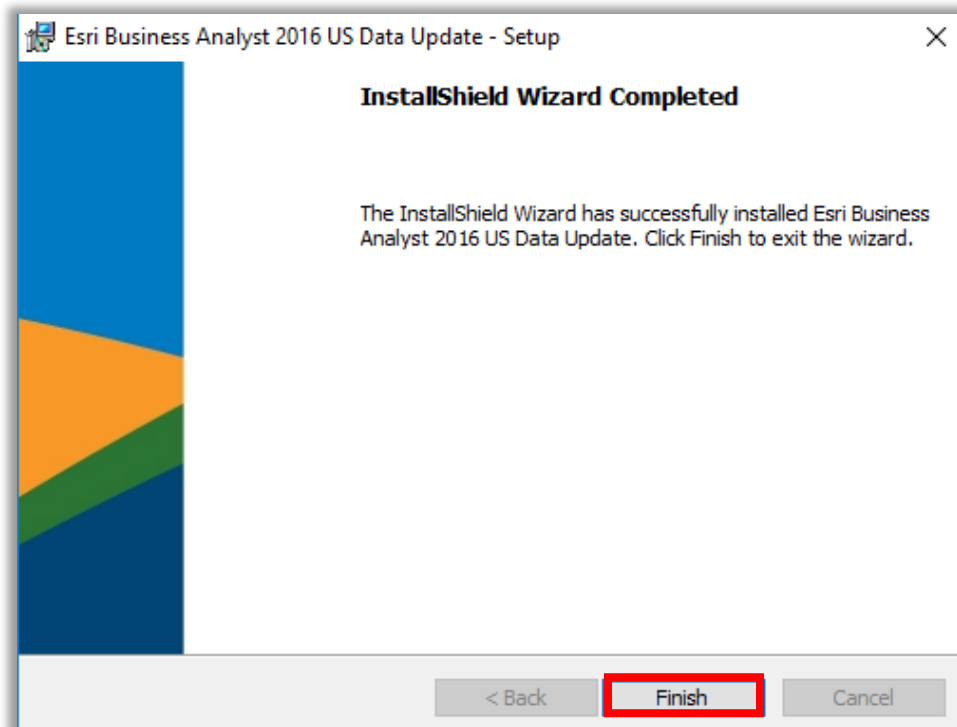

- On the Setup Type window, select [Typical](#) and click [Next](#).

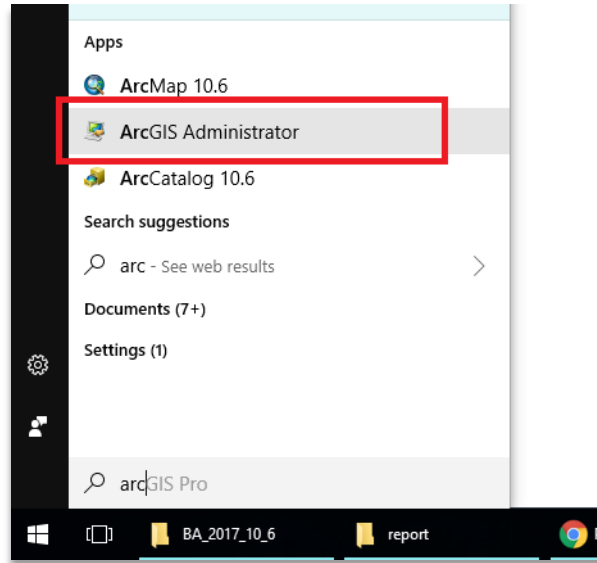

- Click [Install](#).

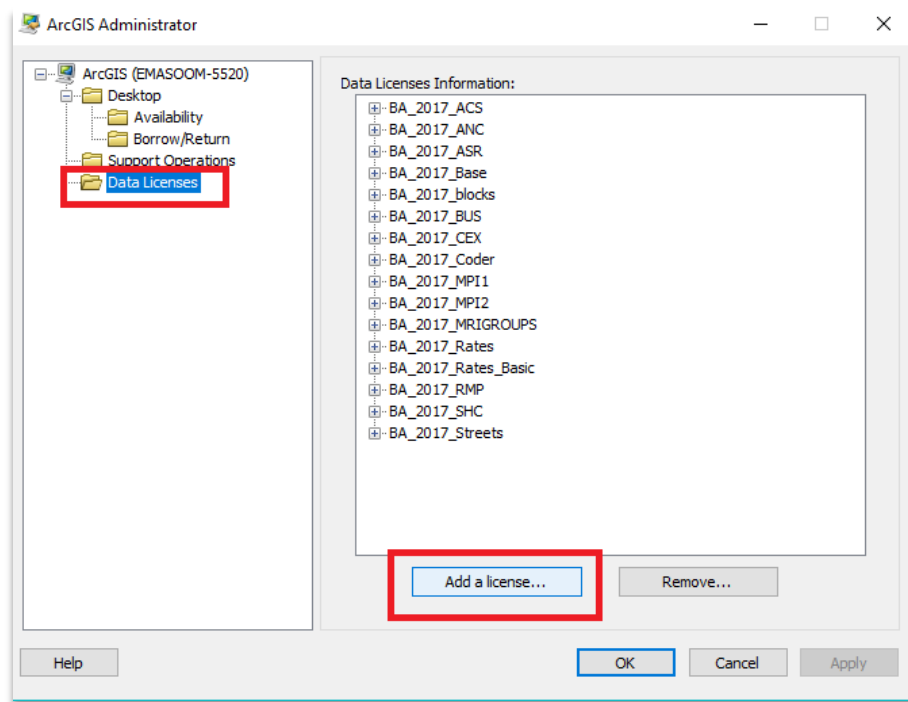

- Let the installer run and then you will see this window, click [Finish](#)

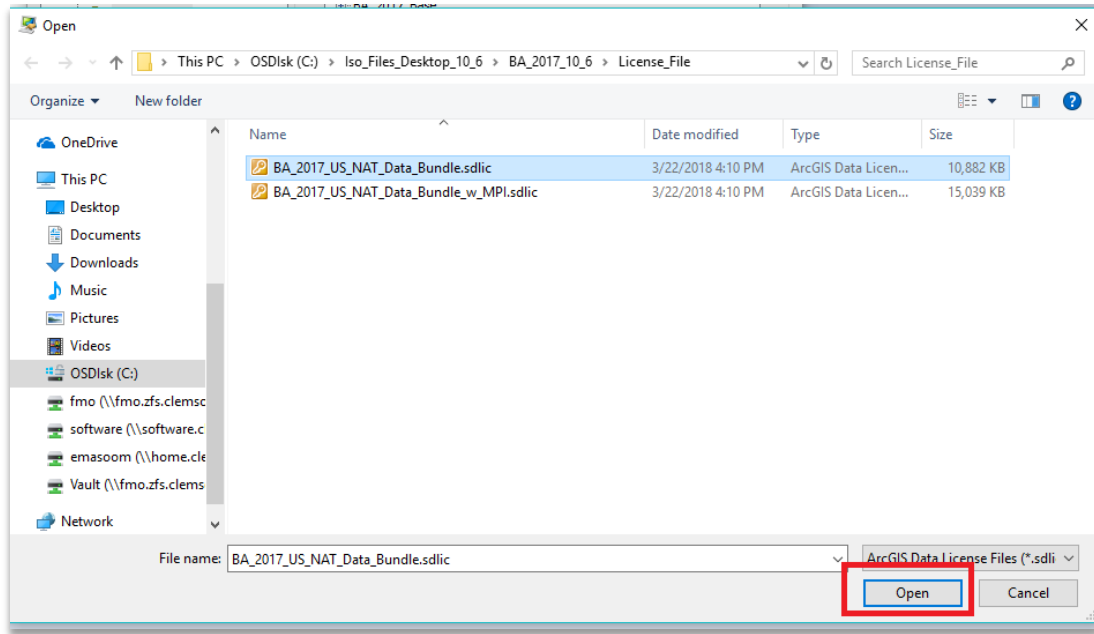

- From the Start menu, open ArcGIS Administrator.

- Go to [Data Licenses](#) and Click on [Add a license...](#)

- Browse to where you have copied the license files and add them.

- Click [Open](#). You are good to go!!
